Cleaning the NASG

Step 1
Put on gloves

Step 2
Mix a 0.05% bleach solution

Decontaminate
Place stone or brick (heavy object) on top of the NASG to keep it submerged

Step 3(a)
Immerse the NASG in bleach solution and soak for 10 min.

Step 3(b)

Step 4
Scrub to remove tissue and particles

Step 5
Hand or machine wash with detergent and cool water

Step 6
If hand washed, rinse with clean (plain) water

Step 7
Squeeze out excess water

Step 8
Hang in the sun to dry
