1. Bina and Deepak, who are both 19 years old, have been together for seven months. Bina always hears her mother tell her older sister that she must abstain from having sex until she gets married. Bina disagrees, but wants to wait until she finds the right person. Two months ago, Bina decided that Deepak was the right person. Before becoming sexually active, Bina and Deepak visited a clinic together. They were both screened for sexually transmitted infections (STIs), and Bina decided to begin taking birth control pills. Bina feels loved and respected when she has sex with Deepak. Sometimes, however, she does not want to have sex when he does. Deepak often expresses his frustration when Bina stops them, but she never allows him to change her mind.
