

# **Empowering women. Inspiring change.**

**A community-first enterprise that transforms  
everyday connections into lasting economic  
opportunity.**

## **What is Femvive?**

FemVive is both a platform and a wellness brand. As a platform, it recruits, trains, and supports women entrepreneurs with access to trusted health and wellness products.

As a brand, FemVive stands for quality, trust, and women-centered wellness. Together, women form a connected sales network that expands access, opens new channels, and delivers sustainable income alongside lasting community impact.

# How it works

## Recruit → Train → Equip → Support

FemVive is a business-enabling platform that equips women to become entrepreneurs and earn supplemental income. Through training, mentorship, and a digital storefront that aggregates trusted wellness products, women gain the tools to run and grow their businesses. Together, they form a connected network that expands access to wellness and offers partners a reliable, women-led pathway to reach underserved markets and deliver measurable impact.

# Why it matters

Too often, women are left out of markets and health access. FemVive flips this by putting women in charge — building income, improving health, and making markets work for women and families.

**Africa's wellness sector is growing twice the global rate, set to reach \$83B by 2028.**

---

# Impact Goals

- **Entrepreneurs:** Women onboarded, trained, and retained
- **Financial:** Growth in women's income and access to financial services
- **Market:** Creation of new, women-led distribution channels
- **Reach:** Households accessing affordable wellness products
- **Education:** Communities engaged through health and wellness awareness

---

**When one woman earns, confidence and opportunity spread through her immediate circle, then her neighborhood, then her wider community.**

---
